The purpose of this meeting was to review the District 2013-2014 Budget, clarify process for movement from certificated to leadership positions, review confidentiality and interested based bargaining, appoint work group for part time faculty issues, and negotiate revisions to Article 4 Workload.

1. Teresa Scott joined the team to discuss the district budget and respond to YFA questions.

2. Next, the District and YFA came to an agreement on the new Fire Science Director, and an MOU will be drafted.

3. We then reviewed homework assignments and formed a work group for part-time issues.

4. Then main negotiations on Article 4 Workload began. Discussions included a weekly hours chart that allocated time spent on different activities for both instructional and non-instructional faculty under a compressed calendar. A work group was designated to explore a few different formats. Minimum class size was moved to next meeting.

5. Next meeting will be held October 16 from 11:30am-3:30pm.
