Shared Governance Documents

Divisions need to review their shared governance documents to ensure that they are updated. We each need to review them to ensure that there are no negotiated issues in the documents. For example, we need to make sure that there are no items regarding working conditions such as: scheduling, hiring, or assignments for part-time faculty. Each division needs to give YFA copies of these documents.

Scheduling

Faculty should contact YFA if you hear of or have been subject to scheduling abnormalities imposed by your dean.
