

**YFA Rep Council Meeting
February 15, 2017
Highlights**

Accreditation

We spent from 3-4:30 working in groups providing feedback on the standards.

Data Dashboard

Faculty should familiarize themselves with the data dashboard found on the Research and Planning Office page. You will find a lot of productivity, success, and enrollment data that can be broken down to the instructor level.

Class Size

There was a lot of discussion about maximum class sizes. Those interested in providing feedback please speak to your YFA representative. This issue is intrinsically tied to compensation discussions, so we should all look over the recommendations made by the Class Size Committee and provide feedback.
