

**YFA Rep Council Meeting  
January 18, 2017  
Highlights**

Accreditation

YFA will facilitate faculty review of the self-report. Representatives will volunteer to review individual standards before our next Council meeting on February 15. At that meeting, we will work in groups to review the document as a whole. Please provide any feedback on the standards before the February 15 meeting.

Class Size Committee

The committee has met and developed several recommendations. Geri will send the recommendations out for constituent feedback. YFA requests feedback by January 25<sup>th</sup>.

Executive Board Stipend Increase

At the end of last year a recommendation to increase Executive Board summer stipends was approved by the Council along with a complementary Bylaws revision which was voted on by the membership. The reason for this increase primarily is to compensate the President and Vice Presidents for their year-round advocacy and grievance work for faculty. This time-consuming and highly-confidential work does not stop over the summer or over interim breaks. YFA is committed to faculty being paid for the work they perform.
